UNTIL THE EFFECT OF THE SO-CALLED EPIDENIC," ETC. following letter speaks in thunder ones in support of the position the APPEAL doomed. Is there no power that can be exof health of Tenuessee, can be arrested? Is there no way to counteract the evils it is working upon the afflicted, helpless commu-

nity? The letter we publish is but one of thousands, perhaps, of the same tenor that have been and will be written and sent goroad in the land, and upon which the death blow to Memphis prosperity will be given? God knows, we have fallen into the hands of a merciless crew, whose only delight seems to be our perpetual commercial downfall. Is it not possible that our gov-

theories upon which they are built? Let the merchant and the properly-owner read the will wouch for, and ecnuder the predicament

epidemic, or possibly what is more correct, until the effects of the wild experimental regulations of that remarkable body located pon the safe and distant limestone hills of lashville, styled the State board of health, who seem to have a tenacious affection for mphis, are better known, I am unwillng to bid upon the stock recently so valuable, or any others dependent upon the future of this city. In spite of adverse legislation, mismanagement, incompetency, and proba-bly fraud at home, and in spite of all pre-vious epidémics and calamities, Memphis has continued to exist and prosper, but it remains to be seen whether the State board of health has accomplished what could not be done by any other force. Yours truly,

Rule No. 8, of the State board of health, which prohibits people from going to church on Sundays, s not enforced by the superintendent of quarantine, Hon. John Johnson."—Appest, 30th. MESSES. EDITORS-Unintentional injustice is done in this statement to a faithful public officer who has not been backward in enforcng orders and laws, even when not approvedby his own judgment. Rule No. 8 prohibits public assemblages, but by necessary construction such assemblages as may be needed are excluded from the prohibition. The safety committee must assemble, the Howard association must assemble and such churches association must assemble, and such churches as have any gift of God to distribute to the people must at least keep open doors, even if there be no large assemblages. A church which can make the presence of great sickness and mortality an excuse for leaving off prayers and sacraments, will be little needed when the danger is passed. It is fair to as-sume that our legislators and the board of health and our faithful quarantine officer ich knew and appreciated this fact, and this without reference to their own religious status, whether Jew or Christian. If we be-lieve anything at all, we must take this view GEO. C. HARRIS.

Dr. Harris has fallen into an error as to Rule No. 8. It was particularly and especially leveled at church assemblies in Memphis and none others, and was gotten up here for that purpose. Quarantine-Officer John Johnson telegraphed to Plunket, of the State board of health, that Rule 8 being not observed by the Catholics of Memphis, and as such violation was complained of by the colored people, he advised that the rule should be receinded, but Plunket telegraphed back that the rule must be enforced during the prevalence of the epidemic. No injustice, intentional or otherwise, is done to our quarantine officer. The above facts can be carned by applying at the office of Mr. Johnson, but possibly they may not, because newspaper reporters, when applying for news that "dark and lonesome room," always hear the words, "Nothing but a few private telegrams." The business of the State board of health and John Johnson's telegrams can only be discovered at Nashville by the Banmer, and to be telegraphed to the press at Louisville and other cities up north. Rule No. 8 is not enforced as to churches in Memphis, because the State board of health devotes early all of its time to defending No. 6.

Business. DEADWOOD, September 27 .- The city has presented an unusually active appearance to-day, the flames and smoke having cleared way enough to allow the mass of ruins to be cleared and the erection of tents and small wooden shanties, of which there has been seventy-five to one hundred put up. Almost every class of business is represented on Main and Sherman streets, and all are having an immense rush of custom, although prices have not advanced except in a very few instances where the demand for some articles was greater than the supply, and even then the advance has been slight. All

daily papers are issuing on small sheets, which are struck off at Lead City. They contain little else than fire news. Lumber is being bauled by every available team in the vicinity, and bringing forty-six dollars per one thousand feet. The mills are running night and day, but not enough can be brought in to supply the enormous demand. Some had shanties erected within five hours from the time of the outbreak. All day telegrams have been pouring in offering goods, money, clothing, food, etc., but as yet noth-ing but merchandise has been accepted. A relief committee has not been organized yet, and probably there will be none. People who are bankrupt and houseless do not want to accept charity from the outside, and merchants and others are very generous and able has taken against the unbecile experimentalists of the State board of health. In its hands Memphis and Memphis commerce is of attending the October term of the supreme erted upon Governor Marks by which the headlong career of this internal machine, smiling under the colors of the State board.

The supreme court will probably adjourn a few weeks, until the city is partially built and

Two Villainous Tramps throw a Young Lady into a Well-She Saves Her Life by Holding on to the Rope.

MARIETTA, September 28.—Quite an excitement was created in this city last night by a rumor that two tramps had killed a young lady and thrown her body into a well at a place near Newport, in this county. gence of those in whose hands he has thrust your correspondent went to the place named gence of those in whose hands he has thrust the destinies of one of the proudest commercial marks on this great thoroughfare of the continent? In her extremity the victim grasped the rope, and there being some twenty-five yet on the windlass, this ran rapidly off, and with a sudden jerk left her suspended twenty-five feet from the top and thirty-five feet above the water. The sudden jerk of the rope, while it almost tore the girl's arms off, probwhile it almost tore the girl's arms off, probably saved her life, for by some strange twist it threw one or two coils of the rope around her ankie, and this enabled her to relieve the terrible strain on her arms until she could find a footbold in the wall. In this terrible position the brave girl stood for one hour and fifteen minutes, not daring to cry out at first, for fear her would-be murderers would know that she was still alive and finish their hellish work. At last she heard the joyful sounds of the barking of her favorite dog, as he accompanied her brothers home from the field, and

NEW YORK, September 29.-Justice Neil son, of the Brooklyn city court, to-day granted a decree of absolute divorce in the suit of Mrs. Marie A. Raymond, better known as Marie Gordon, the actress, against John T. Raymond. The suit was begun about a nonth ago, and the complaint sworn to by Mrs. Raymond contained an allegation of infidelity inculpating a woman in this city The papers were served upon Mr. Raymond while he was fulfilling his recent engagement to Wallack's in Wolfert's Roost. Defense was interposed, and the time allotted for him to put in his answer having expired, Ex-Judge Troy, counsel for the plaintiff, applied to Justice Neilson last week for the appointment of a referee to take the testimony of th woman inculpated, on the ground that she was sick and unable to attend court. Justice Neilson appointed Horace Graves. The wo-man gave her testimony on condition that her name should not be made public. She acknowledged the truth of the allegation, and her testimony being reduced to writing she signed it. Mrs. Raymond, richly attired and wearing diamonds, appeared to-day before

She testified to the date of her marriage with Mr Raymond, and as to whether they had chil dren. The testimony taken by Referee Graves was read, and Justice Neilson decided the case in Mrs. Raymond's favor. By the request of Mrs. Raymond through her counthe people of the south and west-cheap sel, Justice Netison cautioned the clerk of the court to strictly obey the rule enjoining secrecy in absolute divorce proceedings. Accordingly, the papers were locked up. The plaintiff's counsel said to-night that he had any information about the case. It was learned that the woman involved is not an

RULE NO. 6.

The New Injunction Case Argued at the Brownsville Ballroad Bepot, Before Chanceller Livingston, who Reserved his Opinion for a Future Day.

The injunction case of the State board of health, and others, against Special-Judge Jacob S. Galloway and N. W. Speers, jr., was argued yesterday at Brownsville, before Chancellor H. J. Livingston. Judge Archibald Wright and General Gordon appeared for the injunction petitioners, and Judge W. S. Flippin for the defendants. The case was argued some five hours at the depot, in which argued some five hours at the depot, in which the court was held, and the chancellor reserved his opinion, which will be duly announced in a few days. The quarantine laws at Brownsville are very strict, so the attorneys and detendants were not permitted to go up to town, guards being stationed to prevent such an invasion of sporads from Memphis. Chan-cellor Livingston had to open court in the depot building, and guards were placed around it, which prevented the people of Brownsville and others from listening to the able arguments of the counse! engaged in the trial of the cause. It was somewhat strange that the State board of health, while nsisting under Rule No. 6 that seed and lint cotton would become infected with speres in Memphis, they permitted lawyers and others from Memphis to vist Brownsville, but it always makes some difference in this world as to whose ox is gorad. Cabinetmakers, Coopers, Shoemakers and Railroad Employes Want Better Wages-About Two Thousand Men on a Strike.

CINCINNATI, September 29 .- Within the cincinnati, September 29.—Within the past forty-eight hours the various trades unions of this city, controlling the action of the cabinetmakers, coopers, shoemakers and some railroad employes, have succeeded in getting about two thousand men in a strike. Henry Closterburg manufacturing company, Henry Closter-man, Feldekamp & Brother, the Cabinet-makers union, Macke, Bucking & Co., the Betts-street furniture company and the Central furniture association. The uniform demand of the strikers is for a fifteen per cent. advance, and employ-ers have thus far firmly declined to allow the increase. No disturbance has oc-curred. About eight hundred striking cabinetmakers held a meeting to-night, and decided by adopting resolutions to meet away from factories where workmen were out in the strike; to assess workmen who may receive the increase demanded five per cent. for the support of needy strikers, and to form a procession to-morrow to march through the neighborhood where the men have not yet struck. He said he felt as well as ever, barring a slight stiffness in the knees, which he attributed to turning in one direction so much. He was of the opinion that the corners of the course were too round, and that if they had been made with sharper turns it would have been easier for the walkers.

Weston and his wife called upon Rowell during the day. Weston intimated that he

The agreement made provision for a division of the proceeds if six men or any less number completed 450 miles, and it is said that if more than six of the men walked that distance, the winner would receive one-half and the others 'a proportion according to their distances, as may be decided by Sir John Astley.' It is expected that the column will arrive before Cabul Wednesday next. Resistance is unlikely. A Double Murder in Michigan. DETROIT, September 29.—Mr. and Mrs. Henry Morris, of Violinia township, Cass county, were murdered last night, it is supposed by some person or persons with the object of obtaining the money received from a large sale of wheat recently made by Mr. Morris. The body of Mr. Morris was found on the back steps of his house, this morning. with two bullet holes through the neck, and that of his wife was in the bed-room closet, shot four times in the breast. No clue to the perpetrators of the deed as yet.

Killed with a Coupling-Pin. Chattanooga Times: "Dick Woods, a white barkeeper at White's creek, on the Cincinnati Southern railroad, sixty miles above Chattanooga, was murdered in his saloon by unknown parties Friday night. Nothing in regard to the cause and circumstances of the murder could be learned, except that the wound was inflicted with a couplingpin, as he was descending to his cellar. It is surmised that the incentive for the murder was robbery." What Kearney Sald at the Sand Lots.

SAN FRANCISCO, September 30.—Those who visited the sand lots to-day in expectation of hearing Kearney pronounce against Grant were disappointed. In the course of his customary speech the agitator referred to his unsuccessful attempts to obtain an interview with General Grant, stating that his ntention was to invite him to the sand lots He proposed to make no comments on Grant's refusal to see him, leaving the intelligent workingmen to form their own

Traveling with the Wrong Girl. FINCASTLE, VA., September 30.—William Park, residing on Barbers creek, in Craig county, left for parts unknown, taking with nim a girl seventeen years of age, named Molie Colville. Park is between thirty-five and forty, and leaves a wife and seven small children. It is supposed they made their way to Chicago. Park is a miller by trade

Mrs. Sprague's Trustee Bounced. PROVIDENCE, R. I., September 29.—Mrs prague's trustee was refused admission to anonchet to-day by Governor Sprague, although he was accompanied by the agent of Mr. & Chaffee, the trustee of the Sprague estate. The object of the visit was to make an inventory of the property in the house, so that Mrs. Sprague might indicate what she claimed as her personal property. American Sheep Quarantined.

LONDON, September 28.—The Liverpool Post says that in consequence of the prevalence of the foot and mouth disease among thirteen hundred head of sheep which recently arrived there, the privy council is about to issue an order placing American sheep in the same category with cattle.

Checked in Their Advance By the speedy action of Hostetter's Bitters, dyspepsia, nervous indisposition, constipation and billious complaints cease to harass the invalid. That they will instantly give ground is not pretended, but no nedical fact is more certain, or avouched by more competent testimony, than that these maladies and others to which it is adapted, entirely succumb to the influence of the medicine, if it be given a fair trial. Their total, if not instant rout, is certain to ensue. Losses of strength are repaired, and failure

SUDDES DEATH is the fate of every fiber upon which the CAUSTIC POISON of an ordinary hair dye falls. There is no RESURBECTION for the filaments thus blighted. BUFFALO, September 29.—A reporter to-day had an interview with Courtney and Hanlan, the oarsmen who are to row on Chautauqua Lake on the sixteenth of October. Courtney is at a farmhouse on the banks of the lake. He is in splendid condition, although he still complains of feeling a ittle sick. He had just come in from a short spin on the lake, and looked the very pictur of health and robustness. He is well pleased with the water. He doubts very much if the race comes off for the weather will be very cold by the sixteenth; but if it does, and the water is good, he will be at hand. Frenchy Johnson and his cousin Lannon are his at-

This school is fast growing in public favor, and is really one of the very best training schools in the Southern States for boys and young men, as well as a first-class boarding school. CARLOS G. SMITH. MOBILE, ALA., May 15, 1879.

I take pleasure in recommending this school to my friends and the public generally. The salubrity of the climate, the conduct of the domestic department, and the qualifications of the teachers, place ment, and the quantica loss of the school in the first rank of educational institu-tions. This is really a Home School. The boys are well behaved and happy, and under the best domes-tic, educational and religious influences.
